

## **Chapter 1**

*There are three things I want you all to be aware of. First and foremost, I will never be caged in a prison. I will die first. Anyone not okay with this should leave now.*

*Secondly, I am in charge. You will do exactly as I say with no questions and no hesitation. Again, anyone that has a problem with this can leave right now. I will not hesitate to drop you from this job or even shoot you myself if you cannot or will not do as I say.*

*Lastly, I have a plan to make us all a lot of money. I've planned a lot of jobs in my life and there's one thing I've learned: A plan needs to be simple to succeed. This is not the movies where plans involve elaborate and involved timing and trickery. Such schemes are doomed to fail in a world where people, events, and God himself will interfere. So pay attention and I tell you how this is going to work...*
